-  +39 334 8780634
-  chiara.ecosse@gmail.com
-  Italian
-  July 6<sup>th</sup>, 1994
-  I studied architecture to combine my technical and artistic sides. This course of studies led me to develop proactivity and the ability to work in a team with open mind and welcoming constructive feedbacks. Since I've played volleyball competitively for many years, it teaches me even more the group dynamics. Having always merged sport and school, I learnt also to have organizational skills highly developed and self-management. I gained good autonomy and adaptability thanks to the experiences abroad like study trips during High School, Erasmus Program, Dissertation abroad and the working period in London. I'm open to change and I find new environments exciting and motivating. I'm very passionate about facing new learning experiences.

## EDUCATION

**September 2016 - December 2019**

## WORK EXPERIENCE

**December 2019 - ongoing**

### **Innovation Designer**

Openpmi, Corso Castelfidardo, 22 - 10138, Turin (Italy)

Openpmi is the first innovation path built on small and medium-sized enterprises needs. It has a learning by doing approach where multidisciplinary team propose innovative solutions to real and concrete business problems.

**August 2018 - December 2018**

### **Team Member**

Paul Bakery, King's Road, 134 - SW3 4XB, London (Regno Unito)

According to the shift assigned, I setted up the display, I managed the sale of products and the cleaning of premises at closure. Secondly I used the coffee machine, I washed the dishes and I helped the kitchen making cold plates.

**June 2018 - July 2018**

### **Waitress**

Hotel Atlantic Congress e Spa, Via Lanzo, 163 - 10071, Borgaro torinese (Italia)

My duties concerned the rooms preparation, the table service and the clear of them, the cleaning and tidying of the spaces.

**March 2018 - July 2018**

### **Student Collaboration**

Polytechnic, Corso Duca degli Abruzzi, 24 - 10129, Turin (Italy)

I designed brochures and posters to promote DISEG (Department of structural, geotechnical and building engineering): events, activities and the rich educational assortment on offer. Another task, which was part to the Polytecnic's metric survey, had the purpose of recreating it into virtual reality.

**March 2016 - July 2016**

### **Internship**

Studio A.S.Arch. Associati, Via Madama Cristina, 91 - 10126, Turin (Italy)

I partecipati in activities of renovation of private accomodations and design for public competitions.
