### ***Degrees Earned***

PhD, Civil & Environmental Engineering Advisor: Leonard Ortolano, PhD (Harvard University) Concentration: Environmental Planning and Management Dissertation Topic: Community Participation in Urban Sanitation	Stanford University 6/2004
MS, Civil & Environmental Engineering Advisor: Edward Schroeder, PhD (Rice University) Concentration: Water and Wastewater Thesis Topic: Water Treatment Modeling	University of California-Davis 6/1991
BS, Civil & Environmental Engineering Concentration: Water Resources Management	University of California-Davis 6/1985

### ***Professional Registration and Licensure***

Professional Civil Engineer (CA License No. C55925)	1996-present
Certified Floodplain Manager (LA and TX Certificate No. 09-04251)	2009-present
Hazardous Waste Operations (CA Certificate No. 27625)	2000-2004

### ***Research Interests***

- ♦ Environmental hazards and disaster recovery, especially floods, hurricanes, and oil spills.
- ♦ Water management in complex social settings, especially vulnerable communities, developing countries, and high-hazard areas.
- ♦ Participatory development and the co-production of urban infrastructure.

### ***Demonstrated Achievements***

- ♦ As a public official for the City of New Orleans after Katrina, I created new plans and policies in the areas of flood mitigation and mapping, sustainability, and green energy.
- ♦ As an environmental engineer at DOE's Lawrence Livermore National Laboratory, I was part of the groundbreaking Risk Reduction Program for the Heavy Element Facility; the country's first ever transition from nuclear category II down to radiological radiation levels.

## *Professional Employment*

### **A. Academic**

Texas Southern University	
Associate Professor, Urban Planning & Environmental Policy (joint appointment with Political Science)	7/2013-present
Associate Dean of Student Affairs, School of Public Affairs	7/2013-8/2016
University of New Orleans	
Assistant Professor, Planning and Urban Studies	8/2009-6/2013
Massachusetts Institute of Technology	
Visiting Assistant Professor, Urban Studies and Planning	8/2005-6/2006
Virginia Polytechnic Institute & State University	
Assistant Professor, Urban Affairs and Planning	8/2004-5/2005

### **B. Professional**

#### *Planning*

City of New Orleans, New Orleans, LA	
Director of Disaster Mitigation Planning	2007-09
Director of Infrastructure & Environmental Planning	2006-07

#### *Engineering*

Lawrence Livermore National Laboratory, Livermore, CA	
Facility Engineer	2003-04
Environmental/Chemical Engineer	2002-03
F.E. Jordan & Associates, Inc., San Francisco and Oakland, CA	
Principal Engineer	1999-00
Uribe & Associates Environmental Consulting, Oakland, CA	
Principal Engineer	2000-02
Environmental Engineer	1991-94
James M. Montgomery Consulting Engineers, Walnut Creek, CA	
Environmental Engineer	1989-91
Associate Engineer	1988-89
Assistant Engineer	1987-88

### *Consulting (part-time)*

Prevention Institute, Oakland, CA Evaluation Consultant	2019-present
Deep South Center for Environmental Justice, New Orleans, LA Evaluation Consultant	2011-present
The World Bank, Washington, DC Environmental Engineering Consultant	2011-13
Louisiana Bucket Brigade, New Orleans, LA Environmental Justice Consultant	2010-12
RAND Corporation, Santa Monica, CA Disaster Planning Consultant	2009-12

## ***Professional Practice***

### **Planning Management Experience**

*Provided subject matter expertise and recommendations to elected officials and city executives on a variety of environmental planning topics.*

- Raised funds, hired and supervised staff, and managed a \$60 million budget.
- Directed citywide planning programs in hazard mitigation (\$59 million), environmental sustainability (\$1.14 million), solar energy (\$200,000), and healthy communities (\$100,000).

### **Engineering Management Experience**

*Managed the preparation of engineering designs, specifications, cost estimates, compliance evaluations, plans, and reports for a variety of infrastructure and environmental projects.*

- Hired, supervised, and mentored staff; managed an annual facility budget of \$830,000.
- Supervised the work of civil engineers, structural engineers, architects, specification writers, cost estimators, CAD drafters, GIS mapping specialists, technical and administrative staff, and sub-consultants.

- Led numerous proposal writing efforts, sought new business, wrote and administered sub-contracts, and developed and maintained relationships with clients and other firms.

## **Project Experience**

### **a. Environmental Planning Projects**

#### *Citywide Plans*

- Hazard mitigation plan for New Orleans, LA.
- Sustainability action plan for New Orleans, LA.
- Master plan for New Orleans, LA.
- Carbon report for New Orleans, LA.
- Citizen soil remediation guide for New Orleans, LA.
- Fresh food access program for New Orleans, LA.
- Sewer system master plan for Manteca, CA.

#### *Project Plans and Environmental Compliance Documents*

- Environmental impact assessment of wastewater disposal into a bay wetlands/marsh in Palo Alto, CA.
- Environmental permitting, start-up testing, and operational readiness for a newly constructed hazardous and radioactive waste treatment plant in Livermore, CA.
- Preparation of RCRA closure/post-closure documents for a hazardous waste landfill in Bakersfield, CA.
- Environmental compliance analysis of proposed wastewater recycling activities at a Navy Base redevelopment project in San Francisco, CA.
- Regulatory analysis of existing environmental permits for various petroleum waste discharges, waste emissions, and industrial discharges into public sewer systems in northern CA.

### **b. Environmental Engineering Projects**

#### *Mitigation, Remediation, and Monitoring*

- Evaluation of hundreds of residential structures for mitigation via reconstruction, elevation, and wind retrofit in response to hurricane and flood hazards in New Orleans, LA.

- Environmental remediation of an aging radionuclide research facility to mitigate the risk of dispersal of radioactive material during an earthquake in Livermore, CA.
- Monitoring and sampling toxic air emissions from wastewater treatment plants in northern CA.
- Environmental health risk analysis of sludge incineration and development of mitigation methods for Contra Costa County, CA.
- Environmental analysis of industrial waste discharges into a military base sewer system in Nevada.

#### *Hydraulic Modeling and Analysis*

- Hydraulic analysis of drinking water distribution systems in CA and NV.
- Hydraulic analysis of fire protection systems in CA and NV.
- Hydraulic modeling of wastewater treatment plants in northern CA.
- Hydraulic modeling of sanitary sewer systems in northern CA.

#### *Infrastructure Design*

- Design of infrastructure and utilities, preparation of blueprints, and engineering oversight during construction at San Francisco International Airport.
- Design of waste management facilities, preparation of blueprints, and engineering oversight during construction at San Diego International Airport.
- Design of treatment facilities to control toxic air emissions in a San Jose, CA neighborhood sewer system.
- Preliminary design of tertiary filters for a wastewater treatment plant in Fairfield, CA.
- Preliminary design of a wastewater pump station in Oakland, CA.

#### *Other Engineering Analysis*

- Analysis of the feasibility, cost effectiveness, and environmental impacts of enhanced treatment to remove heavy metals at a wastewater treatment plant in Palo Alto, CA.
- Analysis of water quality and pipe corrosion in a Blackhawk, CA neighborhood water system.
- Performance analysis of a sludge treatment system in Fremont, CA.

- Economic analysis of sludge aeration alternatives for a wastewater treatment plant in northern CA.
- Feasibility analysis of sludge incineration at a wastewater treatment plant in Contra Costa County, CA.
- Assessment of hydrogen sulfide emissions from sewer systems in San Jose, CA.
