EXPERIENCE AND LEADERSHIP ROLES

1. International Consultant & Technical Advisor, UNDP Somalia

Date: Nov 2023-Aug 2024

- Lead Technical advisor of the Ministry of Environment & Climate Change and Ministry of Planning, Investment & Economic Development, MoPIED, Somalia under the contract with UNDP Somalia to achieve 3 key milestones. Firstly, to support the establishment of an institutional mechanism in the nodal Ministry of Environment for coordinated actions to adapt to the impacts of climate change as prioritized in the National Adaptation Plan under the Green Climate Fund Project (GCF NAP).
- Capacity Needs Assessment and institutional strengthening of the key sectoral and federal level line ministries with respect to their active engagement in the formulation and implementation of climate-resilient policies and programmes, with particular attention to identifying strategic opportunities for building sustained environmental governance and climate resilience
- Support capacity strengthening of the Ministry of Environment and Climate Change and relevant staff of key-sectoral ministries. Assess the technical capacity needs, develop training manual on the environment & climate basics, NAP process, CCA & Climate Risk Management, and source the training opportunities to deliver key skills to the government staff.
- Develop Climate financing and Resource mobilization action plan, M&E framework to implement the National Adaptation Plan considering the whole environmental governance in Somalia.

2. Researcher, joint study commissioned by UNDRR, UNCHR & Platform for Disaster Displacement (PDD), Geneva Date: Nov-Dec 2023

- Support to develop country case study for "Mapping the Baseline – To what extent are displacement and human mobility integrated in National and Regional Disaster Risk Reduction Strategies?"
- Developed the case study of Pakistan reviewing the Words into Action guidance on "Disaster displacement: How to reduce risk, address impacts and strengthen resilience", synthesize key recommendations for the inclusion of disaster displacement in DRR laws, policies, strategies and plans. Identify any unique/good practices regarding the integration of human mobility/migration.

3. Programme Design Lead for Girls Led Climate Change Adaptation & Mitigation, Plan International Bangladesh Date: November 2023-May 2024

- Review existing theory of change, analyse the gaps in the draft design and Plan's existing climate related work documents. Lead the program design (including TOC) of a replicable gender transformative girls and youth led climate action
- Design a 7-year program in coordination with Plan International Bangladesh's internal team and bigger working group consisting technical leads, key govt partners, Donors and APAC experts
- Develop a piloting plan of the program with a 2.5 million usd financial resource allocation and all required Detail Implementation Plan (DIP) for the pilot program and relevant TORs to engage different key experts from Plan Federation & validation from the Climate change working group

4. Advisor, Urban Disaster Risk Hub, Tomorrow's Cities, an interdisciplinary research hub, UK, initiative of UKRI-GCRF Funding working in 6 key cities namely Istanbul, Kathmandu, Nairobi, Quito, Nabulas, Rapti. Date: November 2019-till date

- UK Research and Innovation (UKRI) Global Challenges Research Fund (GCRF) Urban Disaster Risk Hub – a five-year global interdisciplinary research hub. Provide time to time advisory support for catalyzing a transition from crisis management to multi-hazard risk-informed planning and decision-making, for cities in low-and-middle-income countries. Advise on gender inclusion of environment and disaster related indicators for smart city and scenario mapping.
- To advise on the intersections of risk reduction approach, building resilience & climate change adaptation in the city's context. Provide suggestions for gender inclusion and intersectionality approach with the mission to reduce disaster risk for the poor in tomorrow's cities.

5. Environment, Climate Change, DRR & Gender Inclusion Expert for AFD credit line under Ginger International based in Paris, France March -Oct 2023

- Worked as Environment, Climate Change, DRR and Gender Inclusion Expert in the Feasibility Study to develop a credit line from AFD the French Development Agency to Bangladesh House Building Finance Corporation on Affordable Green Housing infrastructure commissioned by AFD.
- Bangladesh-specific climate assessments, climate vulnerabilities of social groups, social and geographical criteria assessment to define the eligibility criteria for both supply and demand and model the required measures to reach climate co-benefit;
- Performed a basic gender analysis in the targeted sectors (identification of different roles for men and women, collection of sex-disaggregated data, climate risks that affect women in particular etc.

6. Climate Change Advisor, RTI International, USA Date: May 2023 -March 2024

- Working as Climate Change Advisor for RTI International, USA to develop a USAID project on climate change in Bangladesh. Gather/share & asses climate context, document review & other information on local adaptation, finance, governance, application of environmental & social safeguard standards & insights into activities related to the anticipated scope of USAID BEECRA in Bangladesh.

7. Chief Operating Officer, Disaster Climate Change Unit Department of Public Health Engineering, Bangladesh Govt. August 2020-August 2023

- Independent charge for mainstreaming Disaster Risk Management, Climate Change Adaptation & Environmental Compliance, at national level, WASH service delivery in Emergency and Humanitarian context, Gender Equality Integration & Women's Empowerment, joint responsibility of IEC/BCC, Capacity Building, Programme & Financial Management of the Unit including overall progress review and Monitoring & Evaluation under the Bill & Melinda Gates Foundations, BMGF led MoU with DPHE.
- With an aim to mobilize support to the government to achieve SDG 6 & USD 550m by 2025, the unit worked mainly with multi-lateral development banks and with 329 municipalities primarily.

- Led development of the technical proposal, particularly leading the development of government Technical Assistance project, DPP for the Lives and Livelihood, LLF project worth 60m USD & Women in Sanitation Enterprise (WISE) project, 10m USD in 35 Municipalities with 500 women entrepreneurs with funding from IsDB & DPHE. Led development of climate change action plan, risk reduction action plan, gender action plan, environmental & social safeguards for different projects. Supported DPHE to mobilize another 100 million through different other project like ADB Emergency assistance in Rohingya context project, Coastal town environmental infrastructure project.
- Led the technical assistance support to the ADB-Emergency Assistance Project for obtaining environmental clearance, Environmental Impact Assessment, Operationalization's of the Omni Processor in Cox's Bazar Rohingya camp, Market assessment for MURT, reviewing environmental and social safeguard markers etc.
- In collaboration with ITN-BUET (the Capacity Building Hub) accomplished DRR/CCA CWIS/IRF-NAP orientation for 85 municipalities along with 370 officials' capacity development.
- Provided leadership role for the SDP Thematic group on Climate Change and Emergency response. Technical assistance provided for developing the Risk Communications and Community Engagement, RCCE guidelines for DPHE, Municipalities and service providers.
- Led the development of Vulnerability to Resilience Framework (V2R), inputs for National Adaptation Plan, Development of Climate Resilient WASH service delivery in Health Care Facilities in Gaibandha and other climate vulnerable zone. Led and developed the Risk Informed Development Guidelines and Strategies (RIDGES) for WASH Service delivery.

8. Senior Advisor- Climate Change, DRR and Gender, International Centre for Climate Change and Development (ICCCAD)

Date: May 2018 -August 2020

- Led the Accelerating community resilience of the most vulnerable in Covid19 crisis programme with IIED & Global Resilience Partnership, GRP and coordination with Slum Dwellers International, Climate Wise Women, Huairou Commission, Waste Pickers, & Tebteba indigenous group etc.
- Senior Coordinator of the MAINTAIN project with Oxford Policy Management, funded by DFID-UK for shock responsive social security & research on climate change and DRR in community context.
