Please share your experience of the 2013 Colorado Flood

Are you an adult living in or near the following areas?

- Boulder
- Longmont

- Lyons
- Estes Park

If so, please help us understand the needs of flood survivors and contribute to science by taking a *brief online survey*.

For each survey participant, \$5 worth of useful goods will be donated to local charities involved in flood relief.

We are local researchers affiliated with the CU Natural Hazards Center. We have similar projects with disaster survivors in other places. We hope this work in CO will benefit local communities and contribute to a larger body of scientific knowledge.

Thank you for your assistance!
