

A woman with curly hair, wearing glasses and a plaid jacket, is kneeling in a cemetery. She is holding a bouquet of pink and red flowers. The background shows a chain-link fence and several tombstones. The scene is dimly lit, suggesting dusk or dawn.

Urban Development and Cultural Heritage: Identifying Best Cemetery Mitigation Practices In Black Cemeteries

Jennifer Rochon Blanks, PhD Candidate

Texas A&M University

February 13, 2024

Natural Hazards Center Mitigation Matters Webinar

Sites of Resiliency, Remembrance, and Reclamation

Organizers from the Louisiana Bucket Brigade protest the expansion of the Formosa chemical plant from further encroachment on the cemetery

Theoretical Framework

- Connecting these bodies of literature create a framework that converges the conversation to study Black cultural sites through a critical lens
- Emphasizes the Black spatial experiences of the resource
- Can be applied to other cultural resources
 - Churches
 - Schools
 - Etc.

Excavation site of Sugar Land 95 Prison Labor Burial Ground

Erasing Cultural Heritage from Urban Landscapes

- Researchers within the realm of black geographies conceptualize urban landscapes as both tangible proof of and crucial channels through which racial processes are carried out.
 - Transportation projects
 - Natural resource management
 - Eminent domain
 - Redlining
 - Disenfranchisement

Bethany Cemetery, the first Black cemetery in Austin, faces demolition by developers.

Cultural Resources in the Landscape of Black Geography

- Cultural resources are evidence of past human activity, settlement patterns, and traditions
- Erasure of cultural resources deprives geographers of physical evidence crucial for understanding these landscapes and mirrors the broader spatial concerns Black communities face.
 - Loss of memory
 - Knowledge of place
 - Cultural heritage
 - Customs

Heritage Stewardship: Managing Cultural Resources in Texas

- Comprehensive policies safeguard historic burial grounds, addressing ownership, access, desecration, and abandonment.
 - **Local:** Varies based on county policies and designations
 - **State:** The Texas Historical Commission (THC) plays a pivotal role, assisting citizens and organizations in cemetery preservation through workshops, training, and the Historic Texas Cemetery (HTC) designation process.
 - **Federal:** 2021 African American Burial Grounds Study Act empowers the National Park Service to identify and preserve historic African American cemeteries, emphasizing care for graves and repatriation of human remains.

Research Objectives

1. Recover lost memories within the cemetery landscapes
2. Conduct cemetery risk assessment
3. Compare geo-ethnographic strategies to determine best practices for community engagement

Methodology

Case study background

- Jefferson, Texas
- Corinth Baptist Church Cemetery
- Pyland African American Cemetery

Data Collection

- Photo mapping
- Sketch map
- Semi-structured interview
- Field Observations

Analysis

- Coding
- Themes

Participatory Action Research For Data: Workshops and Research

Date	Location	Coordinated by	Workshop Title	Duration	Number of Participants
July 23, 2021	Corinth Baptist Church	Corinth Baptist Church	Corinth Cemetery Day	70mins.	20
October 29, 2022	Corinth Baptist Church	Jennifer Blanks	Cemetery Management 101	90mins.	10
March 18, 2023	Corinth Baptist Church	Jennifer Blanks	Sketch Map Training	90mins.	4
May 27, 2023	Pyland African American Cemetery	Pyland African American Cemetery	Historical Marker Ceremony	70mins.	50+
Total number of participants: 85+					

- Corinth Baptist Church hosted a Cemetery Preservation Workshop Series.
- Intended Audience
 - Cemetery stewards,
 - Volunteers,
 - Historians,
 - Descendants of relatives buried in a Black cemetery in the Northeast Texas region,
 - Community leaders
- Data collection occurred simultaneously during the workshops.

Jennifer demonstrates how to conduct photo mapping

Method 1: Photo Mapping

- The process of creating maps or spatial data by using photographs and images.
 - Geotagging
 - Cultural heritage documentation
- Walked through the cemetery with a participant at the end of each workshop.
- Team independently conducted a cemetery assessment to compliment the participants data

Method 2: Sketch Map Worksheet

Participants completed a short answer worksheet (IRB approved)

Essential features or locations

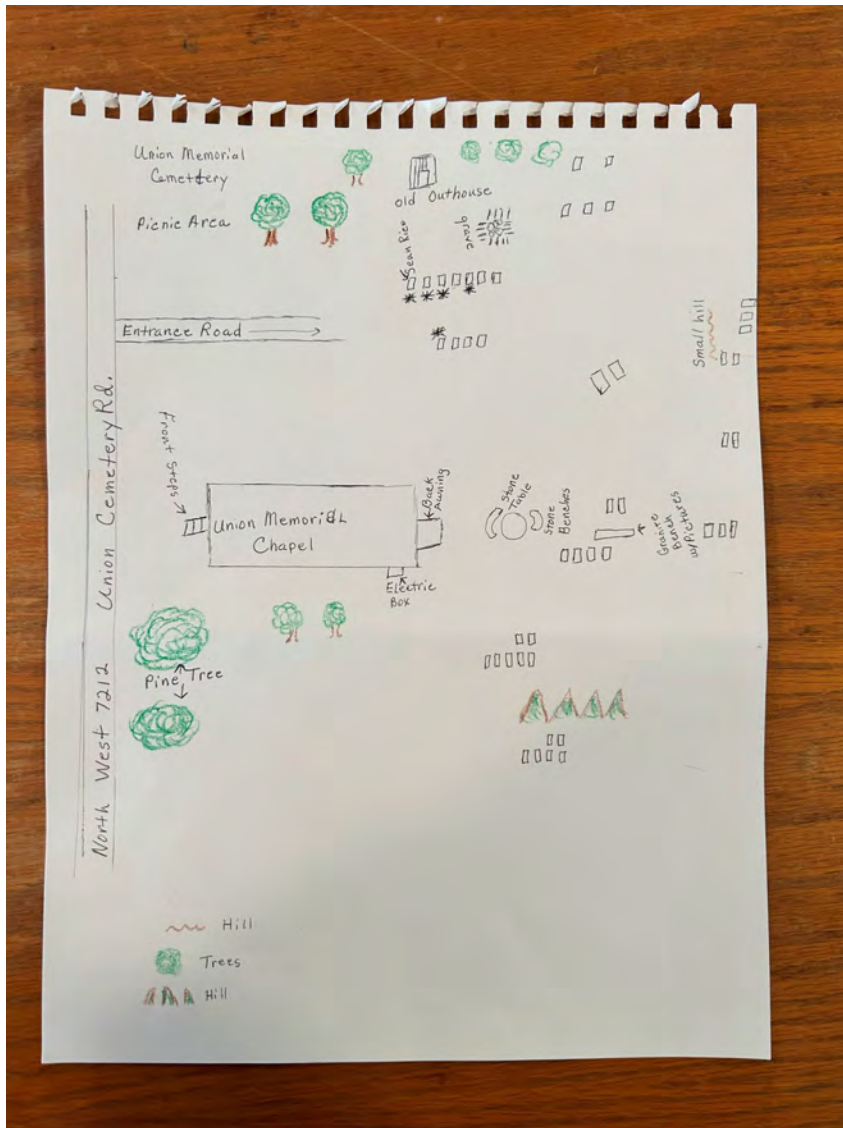

Recent experiences and memories

Events or traditions

Significant locations

Management issues

Collect information about spatial knowledge about their perception and account of the cemetery and use of it (cultural practices, customs, etc.)

Union Memorial Cemetery Sketch Map

Post workshop conversation with community member

Method 3: Semi Structured Interviews

Short answer responses on the sketch map worksheet also doubled as semi-structure interview questions.

Ideal for participants who:

Did not want to draw a sketch map

Preferred one on one conversation

Interested in follow-up resource

Method 4: Field Observation

- Team followed participants throughout the cemetery during walkthrough of photo mapping exercise
- Documented oral stories
- Documented cemetery management issues
- Recorded footage of cemetery tour/walk through
- Observed celebrations and annual events

Data Analysis: Coding

- Create a codebook using an initial set of codes created prior to the analysis.
- The codes were determined based on existing cultural heritage site management themes determined by international cultural heritage site organizations:
 - ICCROM
 - UNESCO World Heritage List
 - Disaster Risk Indicators

Results: Emerging Themes

- **Environmental Pressure = total 200**

- Depression
- Erosion
- Wildlife
- Vegetation

- **Inhabitants of Property = total 300**

- Artifacts
- Ornamental Features
- People (visitors, etc.)
- Gathering/Events
- Stewarding

- **Development Pressure = total 45**

- Boundary
- Transportation Infrastructure

- **Natural Risk and Hazard = total 25**

- Development
- Maintenance/Stewarding
- Cultural Heritage

- **Responsible Visitation = total 254**

- Headstones
- Boundary
- Infrastructure
- Gatherings
- Maintenance/Stewarding

- **Other = total 30**

- Social Threats and Education
- Community
- Connectivity

Tangible Features

- Headstones: Marker or monument placed on a grave to memorialize and identify the person buried there.
 - Physical presence that can be visited by friends, family, and loved ones.
 - Carry symbolic and emotional significance, serving as a focal point for remembrance and reflection
- Ornamental Feature: Personal way to decorate headstones and connect with the memory of the deceased
 - Inscriptions
 - Names, DOB, DOD
 - Portraits
 - Other sentiments and symbols

Alfred Martin Headstone in Corinth Baptist Cemetery

Intangible Features

- Stories: Existence in the mind on the shared cultural consciousness is created through language and imagination and the essence of a story is conveyed through words, thoughts, and emotions.
- Digital Form: Stories or histories are medium of transmission (books, videos, etc.) is the tangible but the story itself is still an intangible creating in the human mind
 - Pyland sketch map
 - Marion County Cemetery book

Handbook of Cemeteries in Marion County

How To Become A Member

You may become a Member by donating \$100 per year renewable every 12 months.

As a Member, you will receive a reduced rate on your burial fee, which is \$300 for a Member-in-Good-Standing or \$500 if not in good standing.

Welcome to the Pyland African American Cemetery - one of the oldest black cemeteries in the East Texas area.

Sanctioned a Texas Historical Site by the Texas Historical Commission, the Pyland African American Cemetery is one of only a handful of black cemeteries operating under a 501(c)(3) designation via the Pyland African American Cemetery Charter (also known as "The PAACC").

The PAACC's Mission

The PAACC's mission is:

- to preserve the history of and
- make improvements to the grounds of the cemetery.
- to establish burial fees,
- oversee the ongoing operations of the cemetery and ensure the future of this great historical site.

DONATIONS

Donations can be made on our website www.thepaacc.org via the security of PayPal or your debit or credit card.

Donations can also be mailed to:
Pyland African American Cemetery
P.O. Box 40645
Fort Worth, TX 76140

WAYS TO GIVE

ONLINE • BY MAIL

FOR ADDITIONAL INFORMATION

If you have questions about Pyland African American Cemetery, please contact one of the PAACC Representatives listed below. **All burials must be coordinated through one of the PAACC Representatives below to determine Membership status and burial fees.**

Linda Cooper - 469.520.1748 | Matthew Lamb - 903.503.8704 | Harry James - 903.720.5654

Discussion: Critical Management

- Perception of cemetery is changing based on critical needs identified by stewards
- Creating Solutions to address management problems
 - Annual events and gatherings
 - Annual fundraising opportunities
- Ongoing discussion and conversation to define cemetery boundaries
- Provide routine perpetual care
- Urgency to preserve the deceased legacy; disconnection from younger descendants and youth
- Sharing information
