CONVERGE

# TODAYS FORUM IS BEING RECORDED

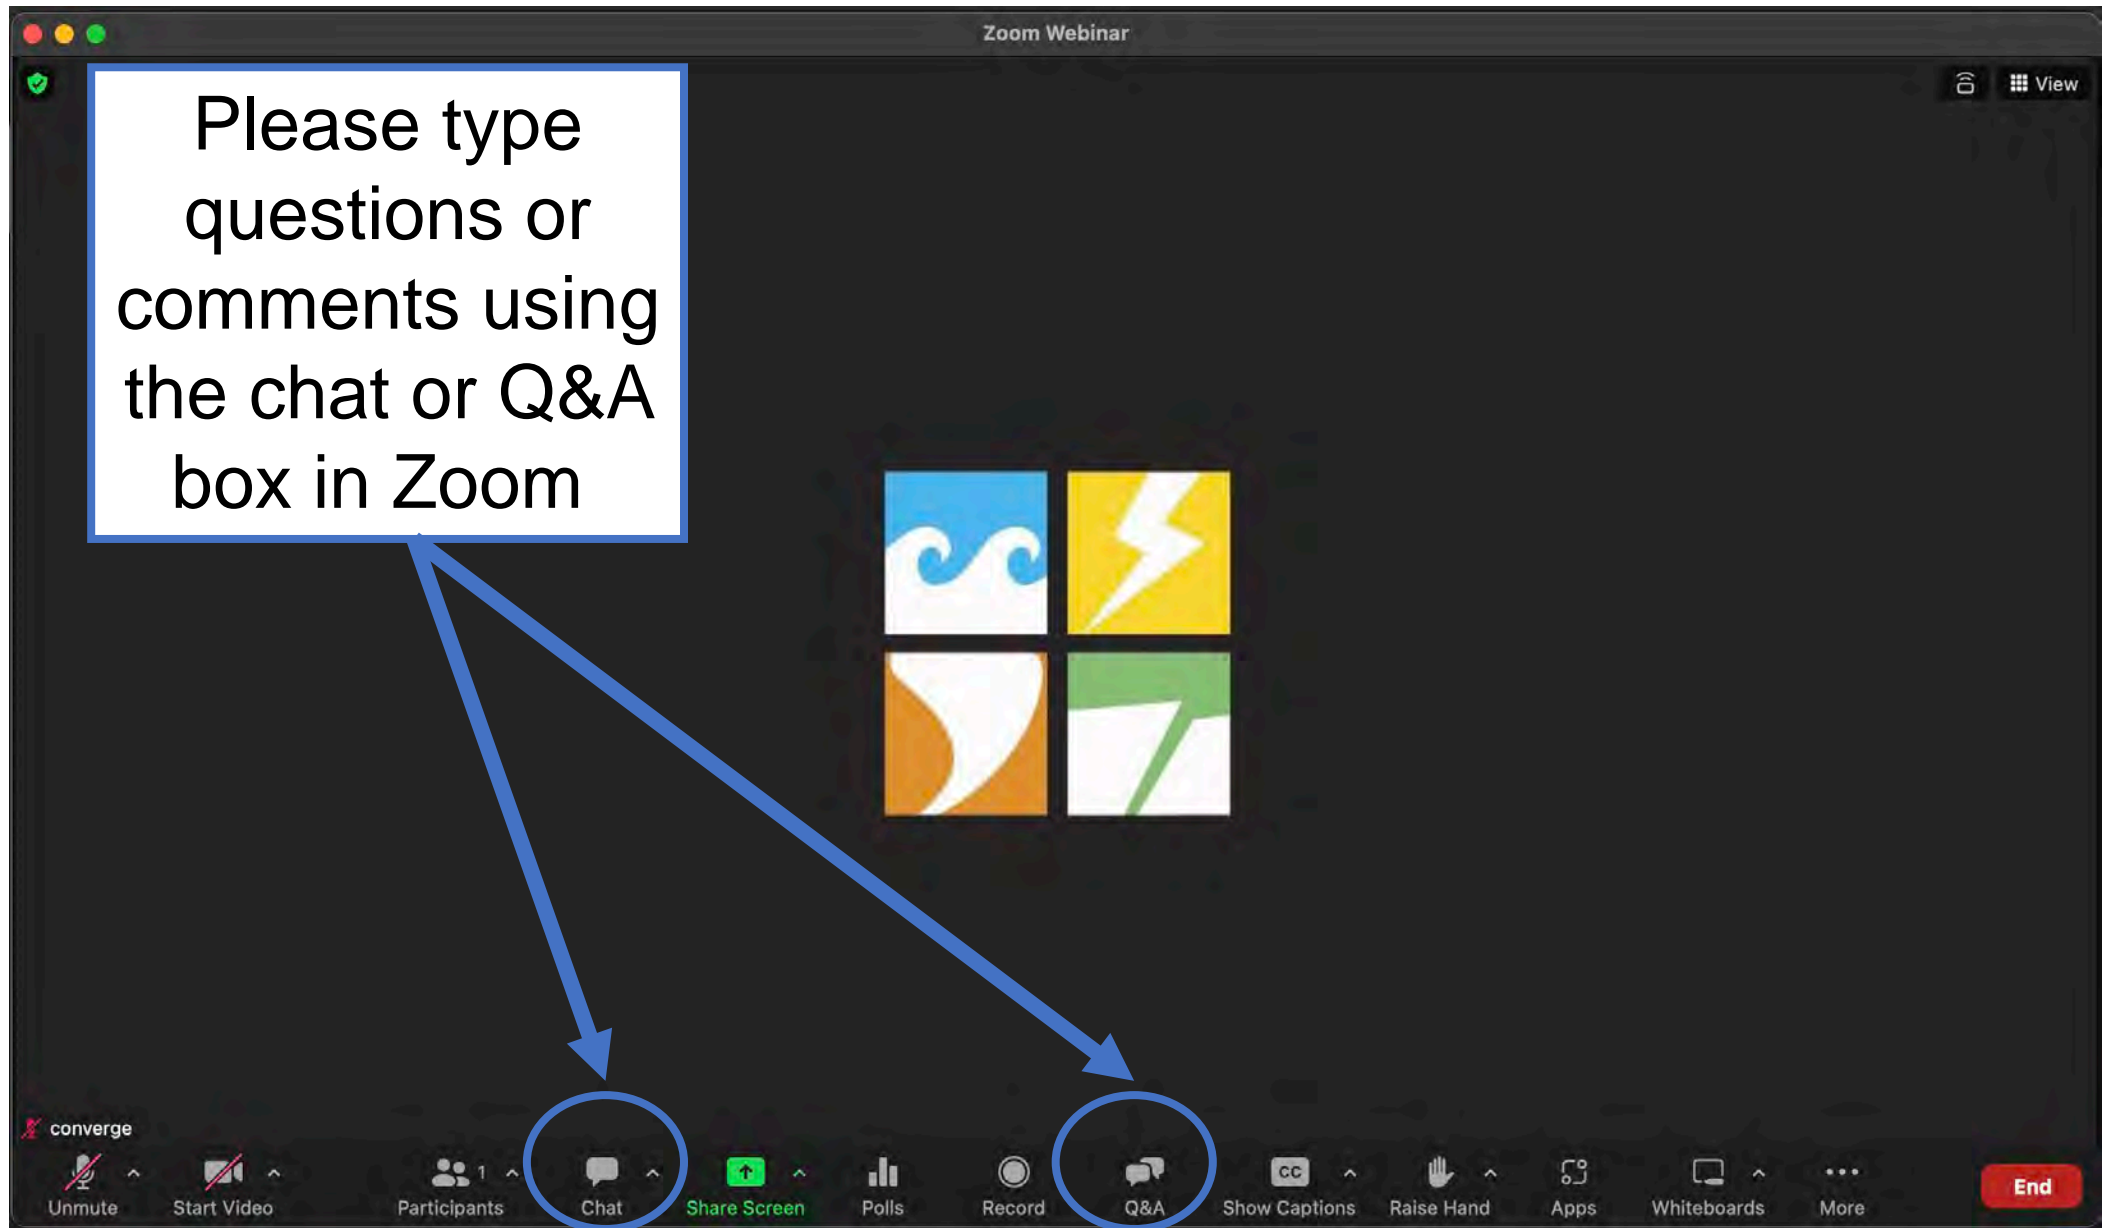

The captioned recording and presentation slides will be posted online at:

[hazards.colorado.edu/training/webinars/making-mitigation-work](https://hazards.colorado.edu/training/webinars/making-mitigation-work)

You can also find the previous webinar recordings on the Making Mitigation Work website under Past Event Recordings:

[hazards.colorado.edu/training/webinars/pastrecordings](https://hazards.colorado.edu/training/webinars/pastrecordings)

# EARN CONTINUING EDUCATION CREDITS

If you attend this live webinar for its duration, please contact, Katie Murphy ([hazctr@colorado.edu](mailto:hazctr@colorado.edu)) to receive your certificate of attendance.

Every webinar earns you 1 contact hour towards your Emergency Management training certification with IAEM!

Additional information is available at: [hazards.colorado.edu/training/webinars/continuing-education-credits](https://hazards.colorado.edu/training/webinars/continuing-education-credits)

# Protecting Memories: Mitigation and Maintenance for our Nation's Cemeteries

Cemeteries play a vital role in our social identity and personal lives. For many, the expectation may be that these places of remembrance are and will be protected in perpetuity. Unfortunately, that might not always be the case.

In practice, numerous factors coalesce to impact how prepared a cemetery is to withstand disaster. Understanding management processes, who the stakeholders are, what funds are available before and after disasters, and a range of other considerations can help ensure that cemeteries remain as protected as possible from extreme events.

Today you will hear experts from Texas A&M University, the Federal Emergency Management Agency, and Resilience Action Partners as they discuss what mitigation experts need to know to protect and prepare burial sites in their communities.
