University of Colorado Boulder

Natural Hazards Center

CONVERGE

NSF Award #1635593 and #1841338

# Today's Webinar is Being Recorded

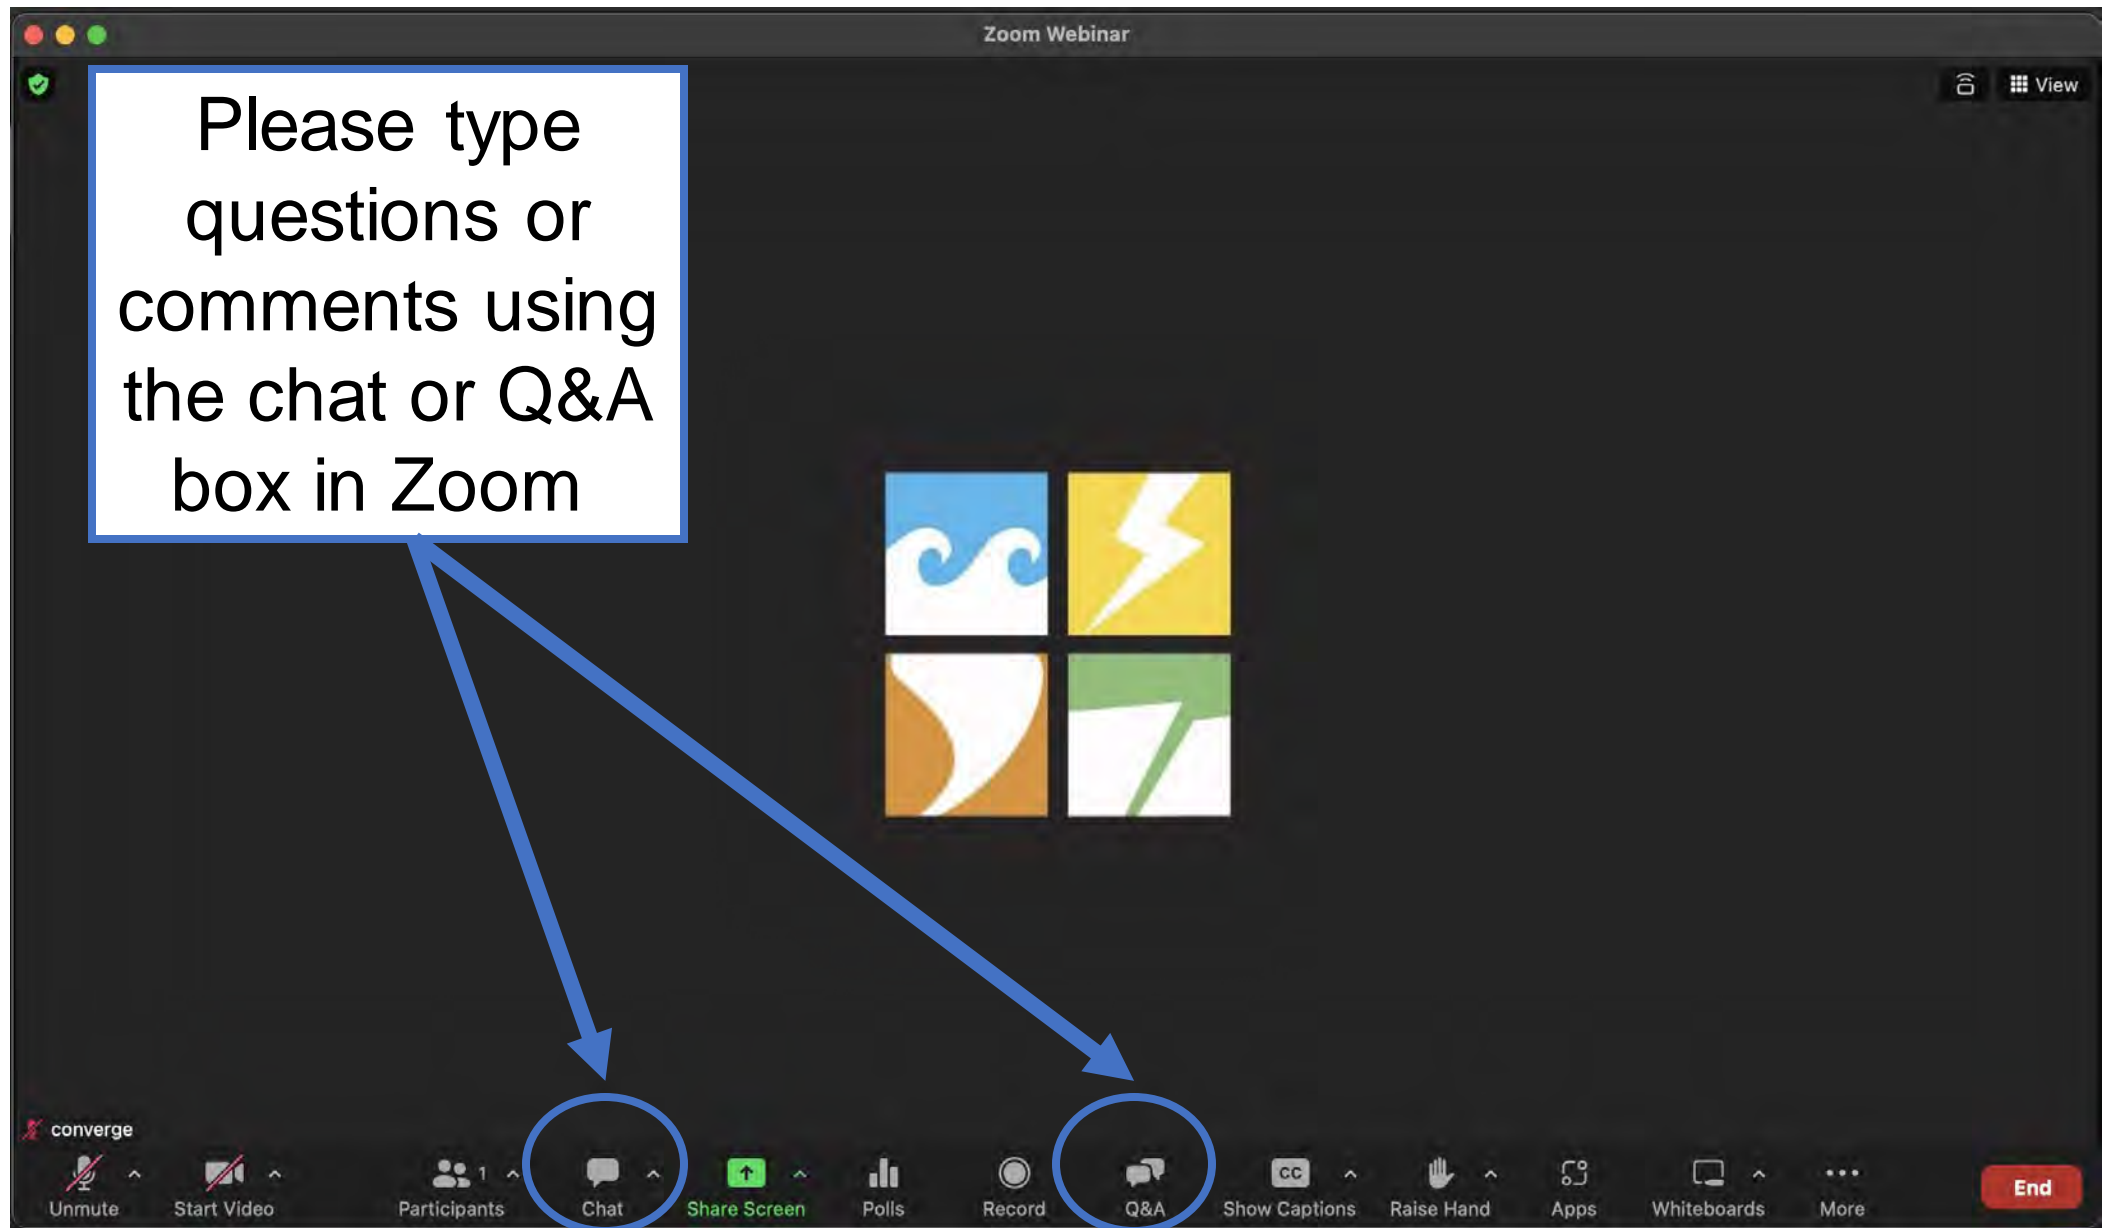

The captioned recording and presentation slides will be posted online at:

[hazards.colorado.edu/training/webinars/making-mitigation-work](https://hazards.colorado.edu/training/webinars/making-mitigation-work)

You can also find the previous webinar recordings on the Making Mitigation Work website under Past Event Recordings:

[hazards.colorado.edu/training/webinars/pastrecordings](https://hazards.colorado.edu/training/webinars/pastrecordings)

# Earn Continuing Education Credits!

If you attend this live webinar for its duration, please contact, Katie Murphy ([hazctr@colorado.edu](mailto:hazctr@colorado.edu)) to receive your certificate of attendance.

Every webinar earns you 1 contact hour towards your Emergency Management training certification with IAEM!

Additional information is available at:  
[hazards.colorado.edu/training/webinars/continuing-education-credits](https://hazards.colorado.edu/training/webinars/continuing-education-credits)

# Strengthening Hazard Mitigation in Under-Resourced Communities

Communities with limited resources can struggle to prioritize, plan, and implement solutions that reduce their risk to hazards. For such communities, the capacity to implement strong mitigation plans can be out of reach due to financial shortages, lack of people power, and a dearth of skills and technical expertise. Recently, however, researchers at the University of Oklahoma have been exploring how to [build capacity for hazard mitigation planning and implementation in these communities.](#)

Making Mitigation Work Webinar Series

# Strengthening Hazard Mitigation in Under-Resourced Communities

**Rachel Riley**  
University of Oklahoma

This webinar will discuss how the project has engaged local planners, emergency managers, and other decision-makers from communities in Arkansas, Oklahoma, Louisiana, and Texas to improve mitigation outcomes and build mitigation capacity.

This webinar is the second in a special series focuses on providing place-based hazard mitigation to underserved communities. The series is made possible by a collaboration between the **National Hazard Mitigation Association** and the Natural Hazards Center.
