Planning for Hazards: Reducing Community Risk

Disasters are occurring more frequently and with greater severity. How can we protect residents from the hazards threats they face? A recent survey of American mayors found that an overwhelming majority pointed to **land use tools**—such as building codes and zoning—as their most powerful tool for managing disaster and climate risk.

The [Planning for Hazards website and guide](#) enables local governments to prepare for and mitigate multiple hazards by integrating resilience and mitigation principles into plans, codes, and standards related to land use and the built environment.

Sign up for updates so you can receive notifications on future webinars and the annual Natural Hazards Workshop: hazards.colorado.edu/signup

The screenshot shows the website hazards.colorado.edu with a navigation bar containing links: ABOUT US, PUBLICATIONS, TRAINING, WORKSHOP, AWARD PROGRAMS, RESEARCH, RESOURCES, and MY NHC. The main content area features a sidebar with a 'Natural Hazards Center' logo and a list of links: 1. Subscribe, 2. About You, and 3. Contact. The main content area is titled 'Natural Hazards Center' and contains a sign-up form. The form has a dropdown menu with options: OUR CENTER (Vision and Mission, Advisory Board, How to Contribute, In the News), OUR AWARDS (Mary Fran Myers Scholarship, Student Paper Competition, Mary Fran Myers Gender and Disaster Award, Disability and Disasters Award), OUR PEOPLE (Center Staff, Directors 1976-Present, In Residence, Research Affiliates), Press/Contact Us, and a 'Subscribe' button. Below the dropdown menu, there are two radio buttons: 'Send Research Awards Program Updates' (selected) and 'Don't Send Research Awards Program Updates'. The form also includes a 'Last Name' input field.
