# Today's Webinar is Being Recorded

The captioned recording and presentation slides will be posted online at:

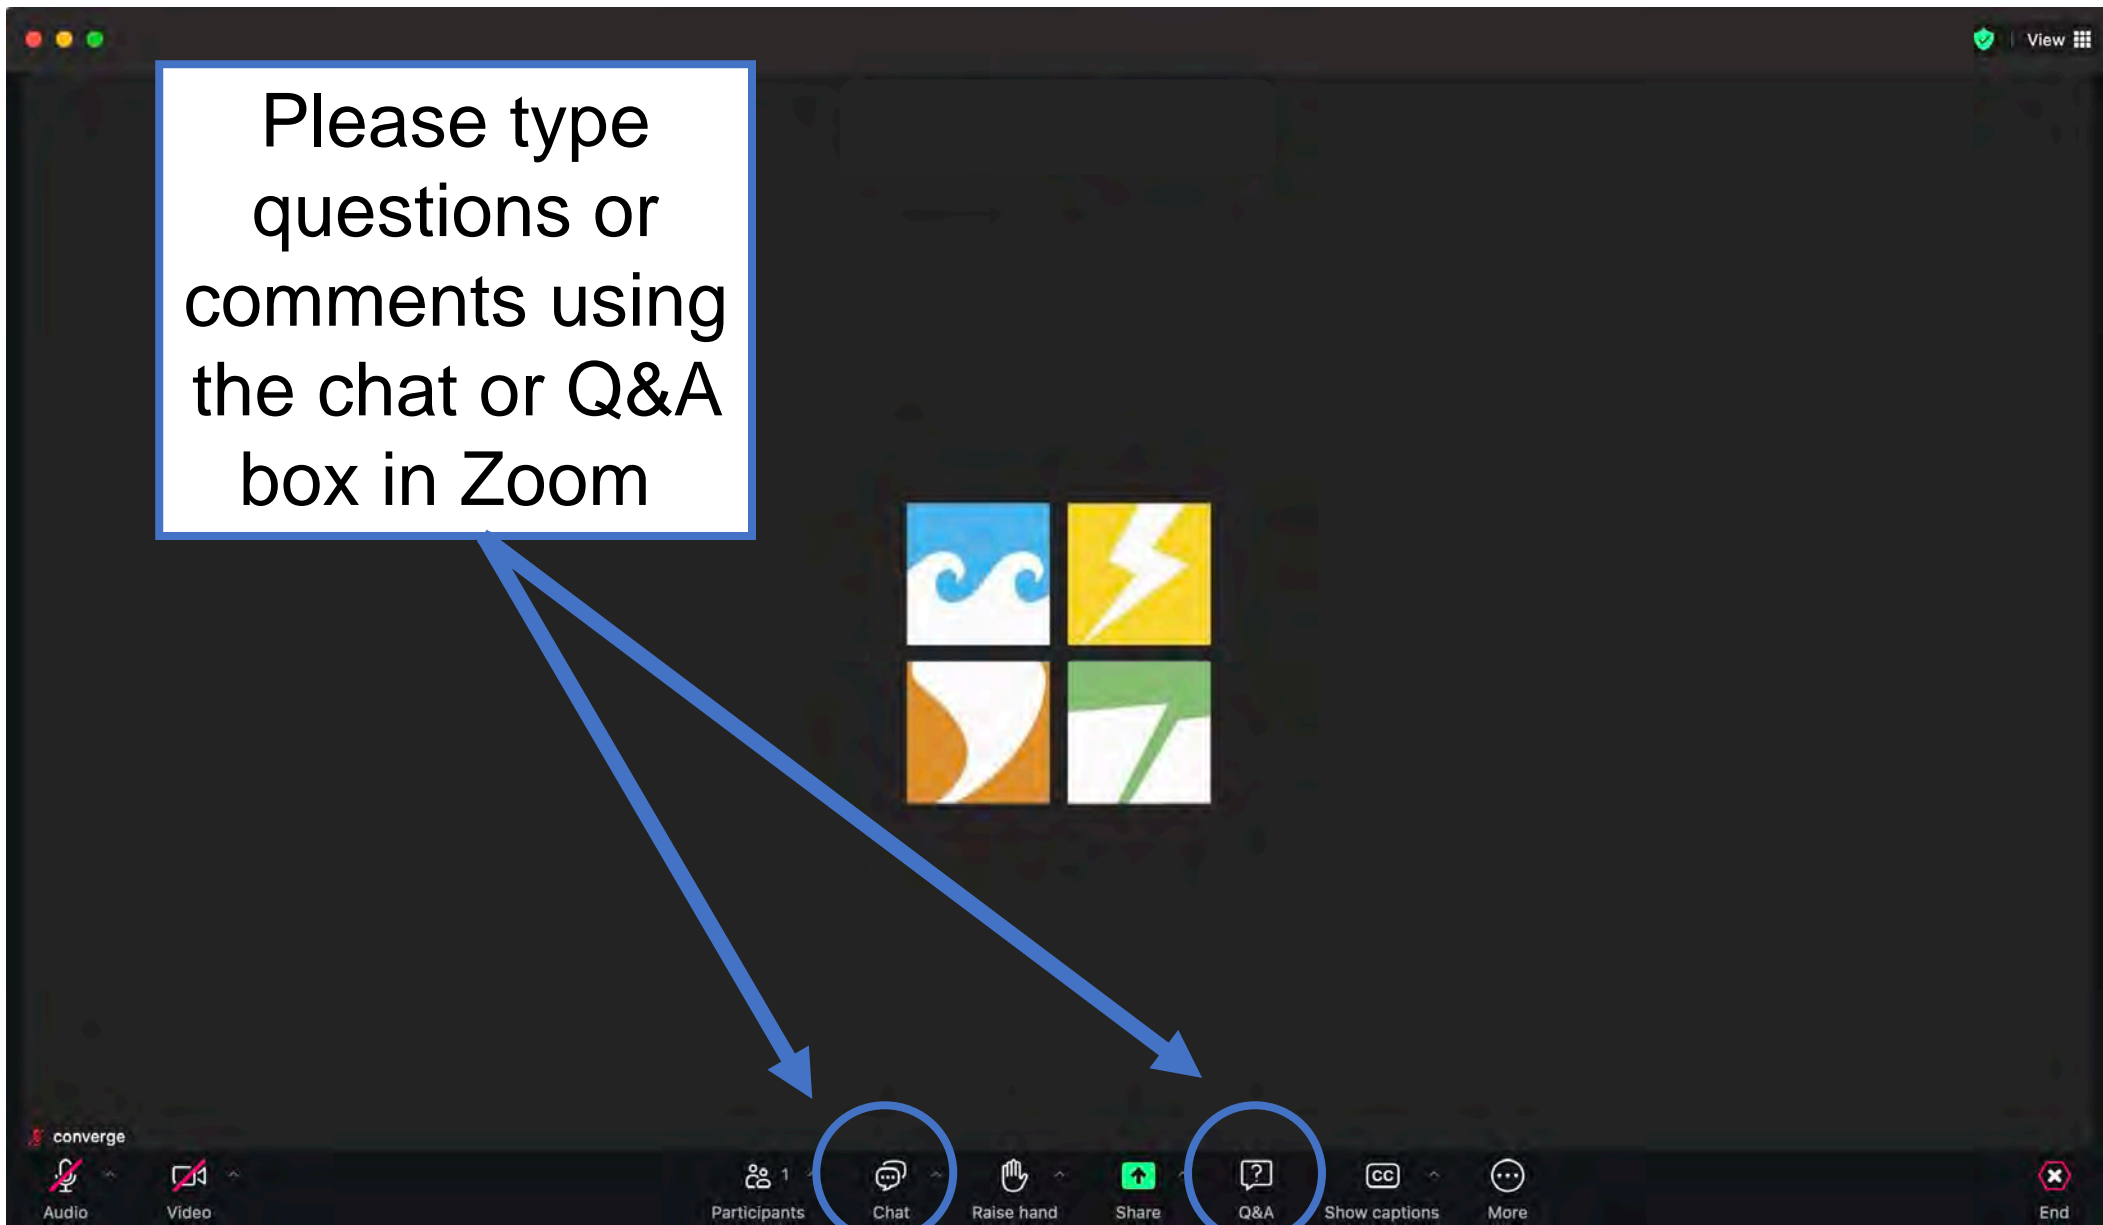

[hazards.colorado.edu/training/webinars/making-mitigation-work](https://hazards.colorado.edu/training/webinars/making-mitigation-work)

You can also find the previous webinar recordings on the Making Mitigation Work website under Past Event Recordings:

[hazards.colorado.edu/training/webinars/pastrecordings](https://hazards.colorado.edu/training/webinars/pastrecordings)

Please type questions or comments using the chat or Q&A box in Zoom

# Earn Continuing Education Credits!

If you attend this live webinar for its duration, please contact us at [hazctr@colorado.edu](mailto:hazctr@colorado.edu) to request your certificate of attendance.

Every webinar earns you 1 contact hour towards your Emergency Management training certification with IAEM!

Additional information is available at: [hazards.colorado.edu/training/webinars/continuing-education-credits](https://hazards.colorado.edu/training/webinars/continuing-education-credits)

# Briefing on the Launch of the Third Assessment of Natural Hazards

In this session, Natural Hazards Center Director, Lori Peek, will describe the purpose and scope of the upcoming Third Assessment.

This will be the first large-scale update of the state of hazards and disaster research in the United States since [\*Disasters by Design\*](#) and the [companion volumes](#) were produced as part of the Second Assessment.

# Apply for the Disability and Disasters Award!

Hazards and disaster practitioners, students, and researchers with a strong commitment to the intersection of disability and disaster are encouraged to apply.

**Application Deadline: December 2, 2024**

## Eligibility:

- **U.S resident and affiliated with a U.S. organization or academic institution**
- **Has not attended the Natural Hazards Center Workshop in-person**
- **Preference for those with demonstrated financial need**

**Disability and Disasters Award**

The Disability and Disasters Award supports people with disabilities working in disasters, as well as those who care for, study, or advocate on behalf of those with disabilities. Award funds will allow the recipient to attend the annual Natural Hazards Workshop and the Researchers or Practitioners Meetings that follow.

People with disabilities have been identified as among the most vulnerable to disasters; however, research has shown that they also have tremendous capacity. This award will recognize those who advance and support the area of disability and disasters.

Recipients of this award will be recognized at the Workshop and will be asked to present a poster or to serve as panelists, where they can highlight their research and/or practical experiences with disability and disasters.
