

# Case Studies in Disaster Response

A volume in Disaster and Emergency Management: Case Studies in Adaptation and Innovation

## About the book

*Case Studies in Disaster Response*, the latest release in the *Disaster and Emergency Management: Case Studies in Adaptation and Innovation* series, focuses on the key functions performed in the emergency response to a disaster, how these functions are coordinated, and typical challenges and issues that emerge. Cases address both hazard- and response-generated needs. Also explored are the needs generated by emergent threats (e.g., Ebola crisis), emergent technologies (e.g., social

media), and emergent groups (e.g., social innovation teams) that set the stage for innovation and adaptation.

## Key Features

- Presents in-depth cases studies in disaster response, one of the phases of disaster management
- Unites practice and research from multiple disciplines to highlight the complexity of disasters preparedness, including environmental and earth sciences, engineering, public health, geography, sociology, and anthropology, humanitarian aid, emergent threats, disaster response and resilience
- Examines policy and ethical dilemmas faced by decision-makers in disaster response situations
- Provides real world concepts for classroom and online learning.
