

Palgrave Studies in Disaster and Emergency Management

ABOUT THE SERIES

Palgrave Studies in Disaster Science and Emergency Management provides state-of-the-art summaries of the field of disaster science and emergency management. The series aims to transfer evidence-based scholarship that enables researchers, practitioners, and students to impact science, practice, and policies. Each volume addresses social and global inequalities in an effort to reduce human suffering. The series sets an agenda for future research, policy, and practice interventions needed to move scholarship and emergency management forward.

CONTACT FOR PROPOSALS

The series editors and editorial board welcome proposals for short volumes (25,000-50,000 words) or authored monographs and edited collections (80,000-120,000 words) that address critical topics of concern worldwide. For further information about the series or to discuss a proposal please contact:
