

44th Annual Natural Hazards Workshop

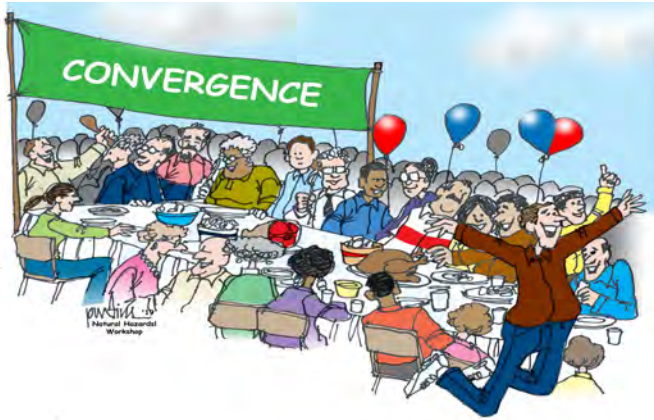

Save the Date!

Sunday, July 14 - Wednesday, July 17, 2019

Omni Interlocken Resort
Broomfield, Colorado

Researchers Meeting

Wednesday, July 17 - Thursday July 18, 2019

Since 1975, the Natural Hazards Center has hosted the Natural Hazards Workshop in Colorado. Today the Workshop brings together over 500 federal, state, and local mitigation and emergency management officials; representatives of nonprofit, private sector, and humanitarian organizations; hazards and disaster researchers; and others dedicated to alleviating the impacts of disasters.

The theme of the 2019 Workshop is ***Convergence: Coming Together to Improve Hazards and Disaster Research, Practice, and Policy***. Join us to share how you are coming together with others in novel ways to reduce risk, save lives, and build sustainable communities. We are especially interested in learning about and featuring diverse groups and teams that have identified a clear challenge and then established a network to respond to that issue.
